

RUTURAJ AMBURE

+91-8010182104 | ruturajambure@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Artificial Intelligence and Data Science undergraduate with strong foundations in **Data Structures & Algorithms**, **Machine Learning**, and **Software Development**. Experienced in building **AI-powered applications**, **full-stack web solutions**, and **industry-sponsored projects**. Passionate about solving **real-world problems** through innovative and scalable technology solutions.

EXPERIENCE

Indian Railways – Nagpur Division (Industry-Sponsored Project)

Railway Evaluation & Inspection Management System | Project Developer

April 2026 – June 2026

- Developing a centralized railway evaluation and inspection management system for monitoring operational activities across multiple stations.
- Designing role-based workflows, inspection tracking, counseling management, and performance assessment modules.
- Building Scalable database architecture and automated reporting features to improve operational transparency and efficiency.

Cravita Technologies India Pvt. Ltd. (Industry-Sponsored Project)

Secure Incident Tracker with Email Alerts using Generative AI | Project Developer

Aug 2025 – Nov 2025

- Developed a Secure Incident Tracker with Email Alerts using to streamline incident reporting, tracking, and resolution workflows.
- Implemented automated email notification mechanisms to improve incident visibility and response efficiency.
- Integrated LLM-based incident analysis and automated report generation using Generative AI.

PROJECTS

TumorVerse - Virtual Cancer Simulation Using AI | Python, PyTorch, XGBoost, ResNet50, U-Net | GitHub

May 2026

- Built an end-to-end **AI framework for cancer detection and classification** using **machine learning** and **deep learning** techniques.
- Implemented **U-Net-based tumor segmentation** to accurately identify and analyze tumor regions from medical imaging data.

StegoVault - Secure Data Hiding System | Python, React.js, Image Processing | GitHub

March 2026

- Developed a **secure steganography system** to conceal sensitive information within digital images.
- Implemented **object-oriented programming principles**, encryption, and extraction mechanisms to ensure secure data storage and communication.
- Built an **interactive web application** for embedding, retrieving, and managing hidden data through image-based communication.

KARTA – AI Credit Appraisal Platform | React.js, FastAPI, PostgreSQL, PaddleOCR, XGBoost | GitHub

April 2025

- Architected an AI-powered credit appraisal platform featuring **6 automated analysis modules** for borrower evaluation and fraud detection.
- Enabled multilingual document intelligence and explainable risk assessment by combining OCR, ML, and **40+ financial data sources**.

TECHNICAL SKILLS

Languages: C/C++, Python, JavaScript/TypeScript, SQL

AI/ML: PyTorch, XGBoost, CNN, U-Net, Machine Learning, Deep Learning

Backend & Web: Node.js, Express, FastAPI, React.js, RESTful APIs

Databases: MySQL, PostgreSQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Computer Networks

Tools: Git, GitHub, VS Code

ACHIEVEMENTS

Patents: Published **2 patents** through the **Indian Patent Office** in the domains of **Web Applications** and **Generative AI-Based Incident Management**.

Artificial Intelligence: Successfully completed the **Artificial Intelligence Bootcamp** conducted by C-DAC Pune under the FutureSkills PRIME (**MeitY & NASSCOM Digital Skilling Initiative**) program.

Problem Solving: Solved **250+ Data Structures & Algorithms** problems on **LeetCode** and **Coding Ninjas**.

EDUCATION

Vishwakarma Institute of Technology, Pune

B.Tech in Artificial Intelligence and Data Science; CGPA: 8.67/10

Pune, Maharashtra

2024 - 2028
